

# THE JOURNEY OF A GIFT

Some of today's most advanced electronics use adhesives.

With our advanced adhesives for electronics, tech companies can turn innovative designs into state-of-the-art products.

After the phone is built and then packaged, we help keep it sealed and tamper-evident, and our work doesn't stop there.

## The car you drive to the store to buy the phone

is held together with our transportation adhesives.

Powertrain  
+ bowl plug sealing  
+ thread locking  
+ EV materials  
+ engine flange sealing  
+ transmission flange sealing

Windscreen bonding

Electronic materials for sensors, cameras, switches and controls systems

Misc interior materials

Headlamp bonding

## The buildings we walk into

use both our construction adhesives and tile floor adhesives that help bring beauty and durability to buildings everywhere.

Door adhesives

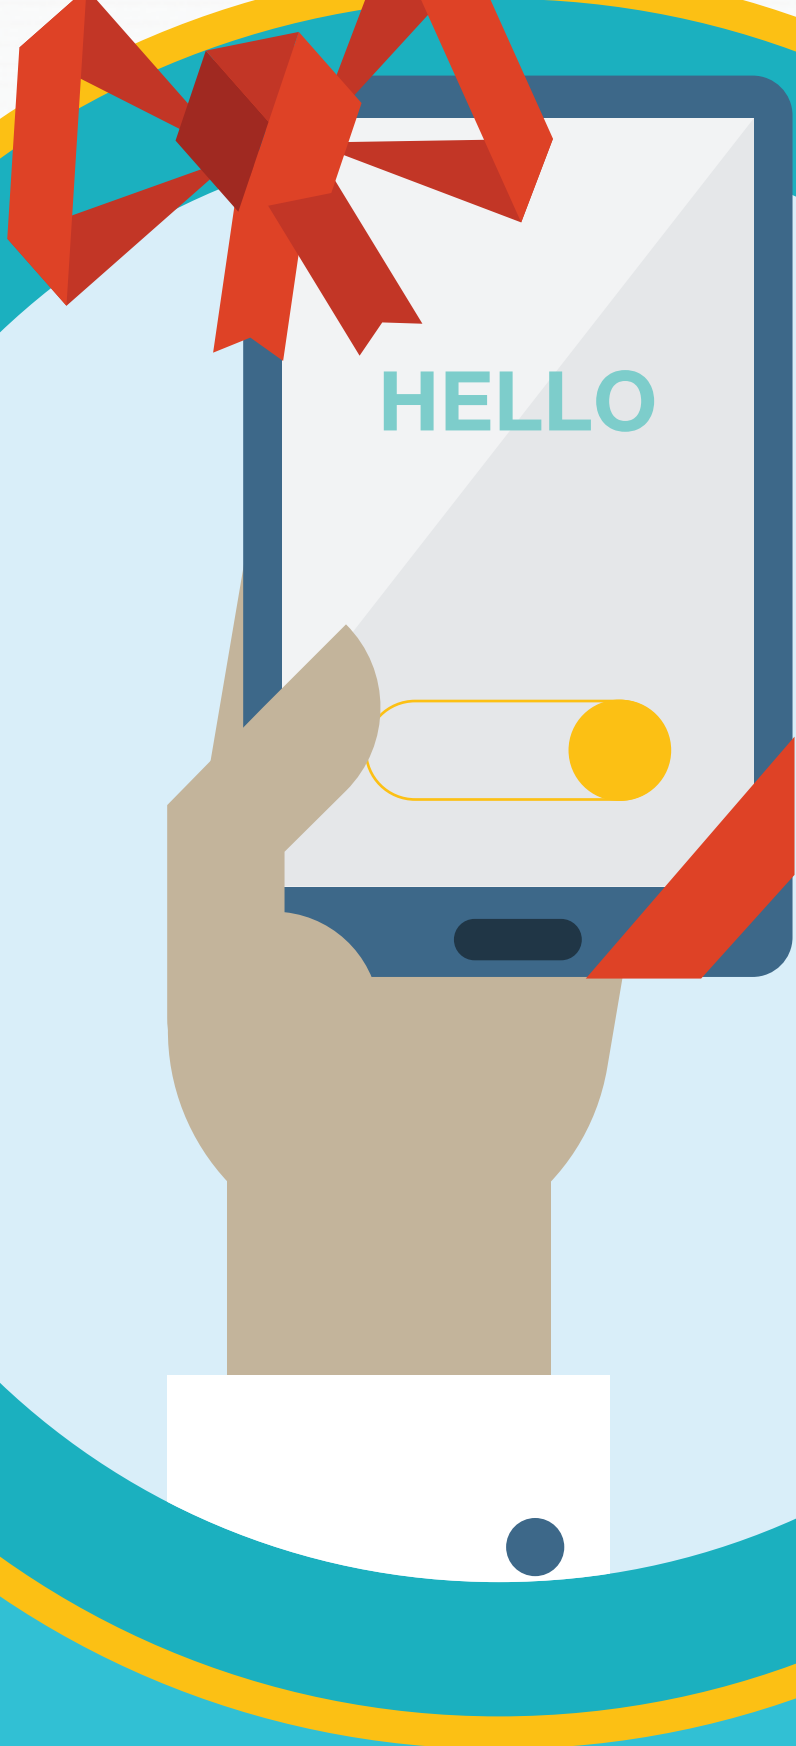

Window adhesives and sealants

Painting and coatings

Flooring adhesives

## Adhesives, made by H.B. Fuller, help keep your world together.

We manufacture industrial adhesives for the products you use every day. We do it to make your life smooth and simple.

So, as the holiday season approaches, take a look around to see which of your favorite things are made possible by industrial adhesives.

We're connecting you to more than you might have thought.

**H.B. Fuller**

Connecting what matters.™
